Report of the Health Officer

COVID-19 Vaccination Effort

Dr. Wilson reported JCDH has received COVID-19 vaccine and JCDH frontline healthcare workers have been vaccinated. Since JCDH is in COVID-19 Incident Command the vaccine will be offered to all other staff, many of whom are helping out with pandemic efforts and are key to helping maintain operations. JCDH provided staff to help vaccinate employees at Children's of Alabama and Grandview Medical Center. A public vaccination clinic was held on Saturday, January 9, 2021 at the Guy M. Tate Building where 200 people were vaccinated. A much larger vaccine effort is being planned for Monday, January 18, 2021 which is the Martin Luther King, Jr. holiday and will include those 75 years of age and older. One site will be located in the Guy M. Tate lobby area and another will be a drive-up site located in the northern part of Jefferson County.

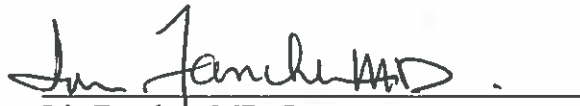

Due to the large amount of telephone calls from the community requesting vaccine, a centralized call center was established at the Jefferson County Emergency Management Agency (EMA). Volunteers answer telephone calls and keep a list of the caller's name and contact information. An online self-registration website has also been established through the EMA. The unified call center will sort the lists by vaccine allocation phase and contact people in each phase when it is their time and there are opportunities for them to be vaccinated. By the end of this week Jefferson County will be caught up with immunizing healthcare workers in Phase 1a who had requested the vaccine. People that receive the initial dose of the vaccine at JCDH will be contacted with a time and place to receive their second dose. As of January 12, 2021 there were 7,000 individuals registered in the 75 and up age group and JCDH is ready to move forward vaccinating this group. Police officers and firefighters have begun getting vaccinated and should be completed in the next few days. University of Alabama at Birmingham (UAB) Hospital will be reaching out to their own patients 75 years of age and older to vaccinate and will also include Cooper Green Mercy Health Services patients. Other hospitals are vaccinating their own patients as well, which could mean some overlapping of vaccine appointments. JCDH is prioritizing our services and reallocating our resources to make vaccination our first priority. The limited vaccination supply is our main concern.

Dr. Wilson is starting to work with key community influencers to provide accurate information and address some myths regarding the COVID-19 vaccines, especially among the African American and Hispanic communities due to vaccine hesitancy and distrust. Information sessions will be conducted to include African American pastors and they will be asked to help us communicate with their congregants. We will also partner with other community influencers.

Racism as a Public Health Problem Resolution

Dr. Wilson stated his plans are to have the revised Racism as a Public Health Problem resolution ready for the February meeting. Input from the Jefferson County Manager's Office and the Birmingham Business Alliance has been taken into consideration to help revise the resolution and Dr. Wilson will aim to have the resolution back to the Board before the next meeting. An "opposite the editorial page" (op-ed) is also being considered for February to coincide with Black History Month.

The next Board of Health meeting is scheduled for Wednesday, February 10, 2021 at 5:00 p.m. in Conference Room A/B or via telephone conference (announcement will be made prior to the meeting date.) There being no further business, the meeting adjourned at 5:58 p.m.

Iris Fancher, MD, Secretary
